

## BUSTER BLACKJACK

Buster Blackjack is an optional side wager on Blackjack where players bet the dealer will bust. The greater the number of cards in the dealer's hand, including his bust card, the higher the payoff.

The Buster bet will be offered on selected, regular Blackjack tables. All payouts consider only the dealer's busted hand. After a player makes his Blackjack wager, he has the option to place the Buster bet in the Buster circle. (The Buster bet cannot exceed the player's Blackjack wager.) All bets must be placed before cards are dealt.

Once all players place their bets, the dealer follows house procedures for dealing the regular game. If no player has made the Buster bet, the dealer plays out his hand per house procedures. If any player has made the Buster bet, the dealer must play out his hand. All Buster bets remain in action, even if the player busts or is dealt a Blackjack.

In the event of a player bust or Blackjack, the dealer tucks the player's cards face up under the Buster bet. If the dealer does not bust, all Buster bets lose. If the dealer busts, all Buster bets are paid according to the pay table.

### PAYOUT SCHEDULE

<b>DEALER BUST</b>	<b>PAYOUT</b>
